## **Please share with all Staff Association Members**

**From: Jean Minifie, Chairperson**

We were just informed by CBE management that there is an email going out this afternoon to each of our members stating the CBE overview for their proposal for April 15, 2008 to the Staff Association.

The CBE overview is not any different than what was presented to the membership on April 17, 2008 or what has been on the Staff Association web site for at least 2 weeks.

This is an unprecedented move by the CBE that has never been done to any other bargaining unit.

**You must have them worried!!**

Their energy would have been better spent by coming back to address the Motion about the Take Aways, Trust Me and Money issues in a serious and conscientious manner with concrete changes as was passed unanimously at the April 17, 2008 meeting.
