ADDENDUM

Supervision of Students

The FYI regarding Supervision of Students left out a very significant aspect of the guidelines. It is important to note that Education Assistants can be required to provide supervision where it is a component of a student's IPP. The intent is not to provide general supervision to all students but rather to supervise a specific student or students they are assigned to in order to achieve the purpose of the IPP (for example: socialization, anger management, self control by employing specific strategies, etc.).
